

Coronavirus (COVID-19) Update – 27th March 2020

As a supplier to UK & Ireland food production & processing industries, Hingerose Limited remains committed to supporting our customers and supply chains. So long as it is within our power, we will continue to remain open through the current coronavirus crisis.

Our top priority is minimising infection risks and taking all necessary precautions to ensure the continued health & safety of all, whether they be colleagues, friends & family and / or customers, suppliers & associates. In line with current guidance, we have introduced a number of measures including:-

- Limiting the number of staff working in our office & warehouse at any one time.
- Closely observing personal distancing protocols.
- Applying the highest possible standards of cleanliness & hygiene in all activities, including cleaning & disinfecting all areas of work on a regular basis.
- Establishing & enforcing strict rules for receiving deliveries.

All staff working on our premises are instructed to observe all government guidance & restrictions outside the workplace and we continue to monitor the situation as we move forward.

Since we are working with reduced staff numbers, it may take us a little longer to respond to your queries, requests & requirements but rest assured we are focused on providing the best service possible while staying safe.

Look after yourselves and stay safe.
